Prison Escape Apprehended By Redwood Police

Man Arrested Here Is Wanted In Eastern State

Prisoner who escaped from the Pennsylvania state prison more than a year ago, was apprehended this week in Redwood City, and is being held in the county jail for the arrival of Pennsylvania police, who will return him to prison. The convict, Joey Rock, 23, was picked up by the Redwood City police, when he was found loitering about the business section at night. Later he was released, but was watched by the police as a suspicious character.

After his release a telegram was received saying that fingerprints taken by the Redwood City police and sent by them to the bureau of identification, had been identified as those of the escaped convict.

Rock was arrested in a small shack near Atherton by Undersheriff Edward Farrell, accompanied by Chief of Police Collins and Officer Bud Thorpe. He later confessed to having escaped from the eastern prison, where he was serving a term for automobile theft.

Lions Hear Address On League of Nations

"The League of Nations" was the subject of an interesting talk given by Attorney Perry Evans of San Francisco at the dinner meeting of the Redwood City Lions Club held at the Emerald Lake Golf Club Tuesday evening.

Reviewing the formation of the League, the speaker stated that it started with 29 nations and now consists of 54 nations, representing five-sixths of the population of the world. The only large nations not now in the League, Mr. Evans stated, are the United States, the Soviet Union, Mexico, Turkey, Brazil and Egypt.

The object and hopes of the League is to prevent war by bringing the nations together and talking over their problems and difficulties. The League has done a wonderful thing in this respect, said Attorney Evans and has demonstrated to the people the meaning of the brotherhood of man.

The United States cannot shut its eyes, declared the speaker, and say it is not interested in European and other world affairs.

Arthur W. Pike was chairman of the meeting.

Mr. and Mrs. A. Andreini entertained a number of friends and relatives at a dinner party given at their home, 426 Webster stret, Sunday, in honor of their son, George Andreini, who graduated in December from Stanford University. The young man received his A. B. degree in history and dramatics.

State To Call For Bids On Bayshore

Bids for the construction of the Bayshore highway between Redwood City and Palo Alto will be called for within the next few months, according to an announcement made this week by George C. Mansfield, secretary of the State Department of Public Works. The bids will be let either during the spring or in the early summer.

Contracts were let last week for the grading and paving of the unit from San Mateo to Redwood City. This contract was let to Frederickson, Watson and Frederickson Bros. of Oakland. The bid submitted by this firm was $406,146. This is for a unit of roadway 7.3 miles long. Work on this unit will be started as soon as the weather will permit.

Industry Group Elect Officers For the Year

P. C. Aubyn Elected Vice-President Of Organization

Officers and directors were elected at a meting of the Peninsula Industrial conference held in San Mateo Tuesday evening. Judge John J. McGrath of San Mateo, was re-elected as president of the organization. Philip C .Aubyn of Redwood City, secretary of the Belle Haven Corporation, was elected vice-president. Fred H. Mahr, was elected to another term as secretary.

A board of directors was elected at this meeting. This is the first board of directors of the organization, the board being created by recently adopted by-laws. The directors elected were:

Mayor William Taylor, San Mateo; E. B. Hinman, Redwood City Chamber of Commerce; James S. James, Burlingame chamber of commerce; John H. Sullivan, Menlo Park chamber; L. O. Head, San Francisco chamber; Percy J. Shaw, South San Francisco chamber; Roscoe D. Wyatt, San Mateo county chamber; T. Louis Chess, San Mateo Heights Improvement Association; and John F. Leinen, representing the Civic League of Improvement clubs of San Francisco.

Three new member organizations were taken in the conference, an organization open to all companies or individuals interested in the industrial development of the county. They were the Western Pacific Railroad Company, the Southern Railroad Company, and Beresford Development Association.

A program of advertising for the water front of San Mateo county was discussed and will be carried out during the year.

Mr. and Mrs. Donald Bogie and infant son have returned from a three weeks' vacation spent in Washington and Oregon.

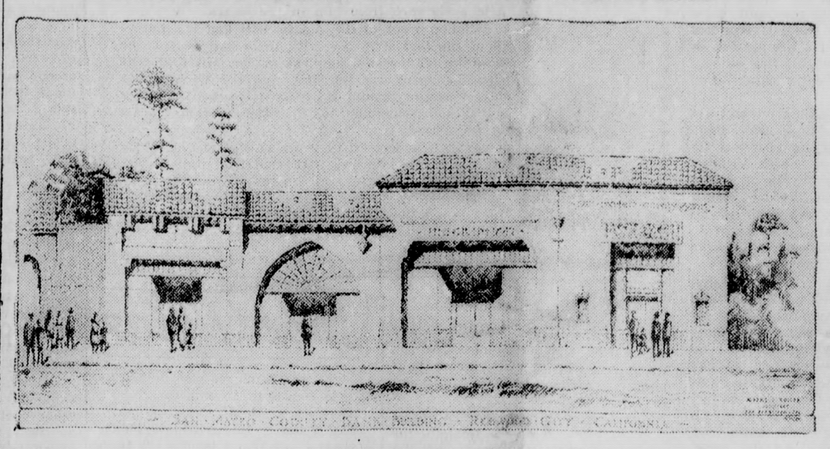
BANK PLANS NEAR COMPLETION



Architect's Sketch of New Bank Building

Plans are rapidly being completed for the construction of the building to house the San Mateo County Bank. Architects are now completing the arangement of the building and contracts will be let shortly. The new bank wfll occupy a site on the corner of Broadway and Minnie street. It will be a one-story reenforced concrete building, large enough for the bank and for a store.

The San Mateo County Bank has since its organization been run as a savings department of the First National Bank, the two occupying the same building. From now on it will have a commercial department of its own and will occupy the new building. A savings department will be added to the First National Bank to care for the savings deposits at that bank.

It is expected that the plans will be ready and contracts let so that work on the new building may be started as soon as the weather will permit.

Two Fast Games Predicted For Sequoia Fives

Both Teams Crippled For Burlingame Matches

By Ray Dixon

With two of the hardest games of the P. A. L. listed for tonight at Burlingame and a disrupted system on both the 130's and the Varsity squads, the outlook for Cherokee victories is doubtful.

Because of the temporary ineligibility due to schoolastic standing, Jens Bugge, 130's rear guard, and "Chuck" DeLacy, Varsity rear guard, rave caused a weakness that is not likely to be filled. With Lew Stacy probably replacing DeLacy for the heavies, the varsity is not as bad off as the lighter team, the thirties, who have depended on Bugge's height to protect the territory around the backboard, especially at recovering the rebounds George Shine, who teamed with Bugge at guard and handles the ball on offences is a shorter man than Bugge and he is about the same height as either of the two reserve guard men, West and Silva.

Jack Morgan, Thirties forward who alternated with Captain Dud Dillard at one of the forward berths, has dropped from the squad because of the pressure of his duties as commissioner of student welfare. Jim Flynn will have to take a try at forward if anything happens to either "Ike" Britschgi or Captain Dillard, unless Tom McCarthy is switched to a wing position.

Burlingame has been said to have a strong pair of quintets and according to Coach Frank Griffin of Sequoia these games will be the hardest in the first round of the league play for the locals.

NOTED LECTURER TO SPEAK AT CHURCH

Elmer Gandy, artist, lecturer and singer of national reputation, is to appear at the First Baptist Church, Heller and Elm streets, this city, January 19 to February 2. Mr. Gandy is a dynamic public speaker, and is known as the illuminating lecturer. He illustrates with pastel landscapes made during the lecture.

The booking agent in speaking of Mr. Gandy says:

"A ready speech, wit, and great enthusiasm for his subject have drawn Mr. Gandy into the lecture field with enviable success resulting. During his discussion he rapidly paints landscapes of the scenes discussed, with results which are most beautiful."

Rec. Chas. H. Gatchell is minister of the First Baptist Church.

The duck season closed Wednesday after a successful three months' hunting on the local marshes. For the past month the birds have been plentiful, but the first of the season they were scarce and wild. Only those having preserves were able to secure the limit.

Harry Hatch, Former Sheriff, Passes Away

John H. (Harry) Hatch, former sheriff and well known resident of San Mateo county, passed away yesterday at the Mills Memorial Hospital in San Mateo. His death followed an illness of only a few days. The deceased was 76 years old. He leaves a widow, Mrs. Mary Hatch; and a brother, Albert E. Hatch of Oakland. Funeral services wil be held in San Mateo tomorrow.

In 1879 Mr. Hatch began his political career when he was elected constable of Halfmoon Bay. Three years later he was elected sheriff and tax collector of the county and served for two terms in these offices. In 1898 he was appointed superintendent of the county farm and remained in that position for four years. Since that time he has been living in San Mateo and has accumulated a large fortune in real estate.

Suit Filed As Result Of Auto Accident

A suit demanding $25,310 was filed in the Superior Court against Frank L. Guernena, San Francisco attorney, and former assistant to Attorney General U. S. Webb. The suit was filed by Frank Castillo of San Francisco, and is the result of the death last September of Castillo's father, Joseph Castillo, in an accident on the highway here.

Castillo was crossing the highway at Five Points on a bicyicle; Guernena was driving a car on the highway and struck and killed him. The coroner's jury failed to fix the blame for the acicdent upon the motorist.

Club Hears Talk On Leper Colony

Frank J. Griffin, head of the boys' physical education department at the Sequoia Union High School, gave a highly interesting talk before the local Kiwanis Club at the Hotel Sequoia Wednesday noon on his recent visit to the leper settlement on the Isle of Molokai in conection with his recent trip to Honolulu with the members of the University of Santa Clara football team.

There are at present 493 patients at the colony, besides a staff of 28, including the superintendent and his wife, doctors, nurses and other workers. Of the 493 men and women patients, eight are white.

The lepers, he explained, live normal lives, many of them having regular ocupations from which they derive an income, have their moving picture theatres and other amusements, take part in the athletic events, and even have dances every other month or so, and apparently are happy and contented with their lot. The cost of maintaining the settlement is about $350,000 a year.

Intermarriage is allowed among the people of the settlement and under the system of taking care of the babies as soon as they are born, not one instance of a child of a leper taking the dread disease has been found. The child is taken from the mother at birth and placed in a separate room, where the parents may see it through a glass partition. Later the child is removed to another island where separate institutions are maintained for boys and girls.

A high tribute to the Sisters and Brothers of the Catholic Church and members of other denominations who sacrifice their lives to the care of the unfortunate lepers on the island, was paid by Mr. Griffin.

Ray Dimick, football coach at Sequoia, was chairman of the meeting, which was presided over by the new president, Roscoe Stephens. Short talks were given during the luncheon by Clyde Lutje and Dud Dillard, captains, respectively, of the unlimited and 130-pound basketball teams at Sequoia.

President Stephens, Vice-President Sam Winklebleck, District Trustee Carl Wagner and Secretary J. D. Hedge of the local club are planning to attend a district trustees' meeting of Kiwanis at Santa Cruz next Saturday.

Rainfall Now Above Normal

Heavy Precipitation Throughout County During Week

Redwood City and this section of the peninsula recived a real drenching Wednesday. During the 24-hour period between midnight Tuesday and midnight Wednesday, 1.61 inches of rain fell here, according to the report of City Park Superintendent, George Hopkins. All the streams in and about Redwood City were flowing bank full and the street department was kept busy all day Wednesday relieving overworked storm sewers in various sections of the city. A small wooden bridge on Woodrow street was carried away during the height of the storm Wednesday afternoon. The channel in the rear of the Times-Gazette shop on Broadway was a raging torrent, and shortly after the noon hour an unusually high tide backed the waters up and for a time it looked as though there was to be a repetition of the occurrence of some eight years ago, when the water overflowed the banks of the channel in the rear of manual training building on Washington street, reached across that thoroughfare and on to Broadway, becoming a veritable river on Broadway, between Washington and Main streets.

Rain Above Normal

With the heavy precipitation of Wednesday, the seasonal rainfall in Redwood up to yesterday morning was 7.87 inches. The normal is 7.80 inches. Up to this same period last year the rainfall was 5.97 inches. Since January 1 this year close to five and one-half inches of rain has fallen here.

Sequoia Girls Will Give Dance Recital

By Wamona Washburn

Closing the first semester's work, the dancing classes of Sequoia Union High School will present a recital Wednesday, January 22, at 1:30. It is being given with the purpose of showing the work of the students during the classroom periods. Twenty-five cents admission will be charged.

The girls are being coached by Mrs. Genevieve Robertson, dancing instructor. Mrs. Elizabeth Littler, stage crew adviser, and Ben Rodgers, will do the lighting. Mrs. Gilbert Wrenn will be the accompanist.

A regular studio for dancing is being planned. It is hoped that as a result of this recital, enough money will heve been raised to enable new drapes to be purchased. Those in charge are planning to procure a professional to design the studio.

Those in the recital are Helen Maninat, Flora Basso, Enid Mays, Jane Mead, Charlotte Rider, Alice Graham, Eudele Murphy, Bessie Lanbrook, Genevieve Cunningham, Marian McLauflin, Gene Duncan, Mary Elizabeth Davies, Muelel Hansen, Edna Grill and Varerie Basso

Sequoia To Meet Water Polo Team Of Olympic Club

By Ray Dixon

Sequoia high's water polo team will open their first game of the season tonight when they meet the Oylmpic Club Juniors at 8:00 o'clock in San Francisco.

The squad is fairly strong although the left forward and left guard positions are not as strong as Coach Eva hopes to have them by the time the league opens January 31 against Menlo J. C.

The probable lineup for the Indians against the Olympic Juniors will be Kellogg, right forward; Martin, left forward; Swett, sprint; Stoner, right guard; Adams, left guard; W. Whitmore, center back; Stokes, goal.

Substitutes who are likely to see action in the watery game are. Cartwright, F. Kalenborn, Goldthwaite, and Rohrer.

Injunction Suit In Redistricting Fight Continued

Move To Compel The Board To Call An Election Blocked

The injunction suit against the board of supervisors filed by Dante Diandi, coastside rancher was given a hearing yesterday in the Superior Court and continued for a week. The suit was to force the supervisors to show cause why they should not be enjoined from calling an election to redistrict the county as demanded in a referendum petition now before the board.

With this continuance the complaint of intervention filed by Geo. W. Williams, former president of the Burlingame chamber of commerce, a counter move to Diandi's suit, was also continued. The latter attempt to force the redistrict move was filed by Williams on Tuesday. If successful, it will nullify the injunction of the coastside man, and allow the board to call the election.

Redwood Man Named To Post In Office Of S. M. City Engineer

Willis G. Frost, civil engineer of this city, has been appointed assistant city engineer of San Mateo, according to an announcement made by City Manager Earl P. Wilsey of San Mateo. Frost will have charge of a large program of civic improvements planned by Wilsey. He has for some time been connected with the Devonshire Properties at San Carlos, and was formerly employed in the office of County Engineer George A. Kneese, a position which Wilsey recently resigned in order to accept the post of city manager of San Mateo.

Station Bandits Stage Hold-up At East Palo Alto

One Believed Guilty Of Other Crimes In County

Two bandits, one of whom is believed to be one of the pair who staged several hold-ups of service stations in San Mateo recently, on Tuesday night, made a raid upon the service station of K. R. Studay in East Palo Alto and secured $22.40.

Studay was alone at the station Tuesday evening when a car drove into the station and the driver asked Studay to put some oil in the machine. The motorist then gave Studay a dollar, and when the latter opened the cash register to make change, placed a gun against his side and warned him not to move. The bandit then removed all cash from the till of the register and, still covering Studay with the gun, returned to the car which the second man had started. As soon as the bandit had gained the car drove off at a high speed.

Studay had a rifle in the station, and seizing this he fired several shots after the retreating car, but failed to stop the bandit pair.

Neither of the men wore masks, and Studay was able to give a good description of the one who entered the station with the gun. He described him as having a peculiar eye. This would correspond with descriptions of the bandit who held up other stations in this county. Another man who accompanied this one in his former raids was shot and killed in San Jose Monday while trying to hold up a garage.

MRS. NELSON ANDREWS PASSES AWAY HERE

The many friends of Mrs. Nelson Andrews will be grieved to hear of her passing at her home, 204 Whipple avenue Thursday morning. Mrs. Andrews has been ill for several months but it had been expected she would regain her health until the last few days.

Mrs. Andrews was born in San Francisco and was the daughter of the late Captain Mathew Turner and Ashbeline Turner. She is survived by her husband, Nelson Andrews, and her son, Foster Andrews. A daughter, Helen, passed away several years ago. She also leaves an only sister, Mrs. Charlotte Chapman of 39 Birch street, this city.

The Andrews have lived here for the past seventeen years and have a large circle of friends who will mourn Mrs. Andrew's passing. She was a member of the Redwood City Woman's Club.

The funeral will be held on Saturday afternoon at 2 o'clock. Services will be strictly private and will be conducted by Rev. B. C. Preston of Palo Alto, a friend of the family. The Crowe Co. has charge of the arrangements.

Rainbow Girls Elect Officers

Redwood City Assembly, Order of Rainbow Girls, held election of officers at the regular meeting in the Masonic Hall last Monday evening. The installation ceremony will take place on January 27.

The new officers are as follows: Miss Chastina Hartsough, worthy adviser; Miss Annie Templeton, worthy associate adviser; Miss Gertrude Gibson, sister of charity; Miss Martha Brand, sister of hope; Miss Mertie Tripp, sister of faith; and Miss Nancy Holmquist, secretary. Other officers will be appointed and installed at the same time by Miss Virginia Klassen, the outgoing worthy adviser.

Plans were also made at Monday's meeting for a dance to be given by the Rainbow Girls and the DeMolay lodge on Friday evening, February 21.

Man From Here Goes South As Murder Witness

O. Hefner Found In Redwood City; To Testify In L. A.

Arthur Chance of this city, paroled from San Quentin under the assumed name of Otis Hefner, has been taken to Los Angeles as a witness in the William Desmond Taylor murder case. Chance, an employee of the Pacific Gas and Electric Company, was identified as the paroled convict. He is said to be a material witness in the murder of the motion picture director. It was at first believed that Chance, or Hefner, as he was known in the south, could tell the wehereabouts of Edward Sands, Taylor's valet.

While not an eye witness to the murder, Hefner is said to have gone to Taylor's house with Sands and to have seen a well-known screen actress make a hasty exit from the house. Sands entered and found the producer murdered. Hefner charges that he was railroaded to prison to prevent him giving evidence at the trial.

DEATH CLAIMS 17-YEAR-OLD GIRL

Death claimed yesterday at a Palo Alto Hospital, Frances Buffa, 17-year-old daughter of Mr. and Mrs. Pietro Buffa of 1904 El Camino Real, this city. Death followed a short illness. Miss Buffa was born in San Francisco, but had lived practically all her life in Redwood City. She was a student at the Sequoia Union High School.

In addition to her parents, she is survived by two brothers and two sisters, James, Joseph, Angelina and Helen Buffa.

The funeral will be held Saturday morning from the chapel of Layng & Tinney at 9:30 o'clock, thence to Mt. Carmel Catholic Church, where a requiem mass will be celebrated, comencing at 10:00 oclock. Interment will be in Holy Cross cemetery, Menlo Park.

FATHER CAVANAUGH LEAVES FOR EUROPE

Rev. Father J. P. Cavanaugh, pastor of Mount Carmel Church, left Wednesday for a trip to Europe and will be absent from Redwood City for the next five months. With Archbishop E. J. Hanna he will go direct to Rome. Other priests will be in the party. Father Cavanaugh will tour the continent before returning. Father Cavanaugh was ordained at St. Patrick's Seminary at Menlo Park some years ago. He is the last of his class to visit the Eternal City, the other members having done so from time to time since the ordination.

Monday evening the Y. M. I. and Y. L. I. gave a party in the club house on Brewster street in his honor. During the evening Father Cavanaugh was given a precious and costly gift. His response was brief, but gracious and to the point.

Father Flannigan will be in charge of the parish during absence of the pastor.

Masonic Lodge Will Present 50-Year Pin

Pioneer Resident To Receive Honor From Grand Lodge

On Thursday evening, January 30, the Grand Lodge of Masons of this state will make a presentation of a button to a member of Redwood City Lodge No. 168 F. & A. M. The button, which is presented for a membership of fifty years in a Masonic Lodge, will be presented to John Ralston, pioneer resident of Pescadero.

In 1852, while his parents were making their way by covered wagon from Pennsylvania to California, John Ralston was born. The wagon train was at that time passing through Utah. The family settled in Mountain View in 1854, and a short time later went to Pescadero, where the father purchased a large ranch. Here the family has made its home since, being one of the best known families on the coastside. Mr. Ralston is now keeper of the county's memorial park at Pescadero. For more than fifty years he has been a member of the Redwood City lodge of Masons, being one of the oldest members of the lodge in point of membership.

Odd Fellows Install Officers Wednesday

The recently elected officers of Bay View Lodge No. 109, I. O. O. F. were installed Wednesday evening by District Deputy Grand Master William Hodges of Burlingame. The officers installed in office in the Redwood City lodge were: Dr. R. C. Frazier, noble grand; E. L. Conwell, vice-grand; Clayton Schimf, recording secretary; W. Mallory, financial secretary; Harry Hanson, treasurer; "Speed" Borke, warden; Earl Rush, conductor Glenn Alexander, chaplain; A. Home Has More Danger Than Savages of Brazil

JOHN J. WHITEHEAD, explorer and lecturer, has just returned from eight months in the jungles of South America, where he was searching for traces of the lost Colonel Fawcett and his son.

Dangerous as he found the jungle, he encountered a worse danger at home. But let him tell it.

"One of the great problems of a trip of this kind is keeping in healthy condition. When we started, some of the members of the party had laxatives with them, but made wise by experience I carried Nujol. All too quickly my stock ran out. Soon I was in bad shape—what with a diet of rice and beans, lacking vitamins and green vegetables.

"When we finally got back to civilization, entertained first in Brazil and later in the United States, I became positively ill. Severe stomach pains and poor elimination made me realize that Nujol would again prove the reliable, trusty keeper of health. Sure enough, with the first bottle the trouble disappeared.

Don't think Nujol is a medicine. It is as tasteless and colorless as clear water. It brings you, however, what your body needs like any other machine—lubrication. Just as a good bath washes our bodies clean, Nujol sweeps away, easily and normally, those internal bodily poisons (we all have them) that make us feel dull and headachy and sick. Nujol cannot hurt even a little baby; it forms no habit; it contains not one single drug. Doctors and nurses use it themselves and tell *you* to use it, if you want to be well.

Take Nujol every night for two weeks and prove to yourself how happy and bright and full of pep you can be, if your body is internally clean. Get a bottle today at any drug store. It costs but a few cents, and makes you feel like a million dollars. Start traveling the health-road to success and happiness—this very day!

CALIFORNIA NEWS BRIEFS

At a meeting of the Granada Chamber of Commerce a resolution was passed to request the Pacific Telephone Company to link up Granada phones with the Reseda exchange, south of Granada. At present, the Granada phones are served by the San Fernando office. A betterment of service is sought in the change, the resolution states. A resolution also was passed to ask the Los Angeles City Council to erect a fire station in that section. The nearest fire station is at Van Nuys, seven or eight miles away.

The Southern Pacific Company received permission from the State Railroad Commission to abandon its non-agency station at North Vallejo. Since the auto stages have replaced passenger trains running out of South Vallejo, the station has been of no value to the company, it is said. In removing it one of the old landmarks of Vallejo will be gone.

Motorists traveling over Golden State Highway, south of Bakersfield who fail to heed warnings issued by Capt. Roy Baylen's squad of "stop-and-check" traffic patrolmen, will be prosecuted to the full extent of the law. This was the announcement made by Justice of the Peace Robert Davis, before whom are brought all traffic violators taken into custody by traffic patrolmen working under jurisdiction of the California highway patrol. According to Davis, who has been enlisted by Capt. Gaylen in his crusade to prevent accidents on the thirty-two-mile straightaway, every motor vehicle operator who pleads guilty to a traffic violation charge, or who is convicted of the charge, will be fined or jailed to the limit. Announcement of the drastic plan was made following a conference in which the traffic situation south of Bakersfield was thoroughly discussed. Recently speeders on the fog-dimmed, slippery highway have been assessed approximately $10 apiece, but in the future they will receive the limit of $50; reckless drivers heretofore have escaped with a small fine, but from now on they will get the limit of $250 fine, ninety days in jail, or both, Davis said.

Seven quartz and two placer mine locations were recorded in Tuolumne County in December, bringing the total for the year to 140 quartz and 36 placer claims.

San Jose will boom in 1930, according to building projects now contemplated there. The total value of building permits, $2,467,060 for 1929, is expected to swell to $7,000,000 or more next year, according to M. C. Woodruff, city building inspector. Included in the 1930 projects are city schools, $1,180,000; Southern Pacific depot and subways, $2,000,000; two new hotels, $750,000 and $500,000; theater, $750,000, two new stores, $400,000, and more than a million dollars is expected to be expended on new residences.

Out of 130 sites originally offered, only four are now under consideration for the new prison and state hospital for the insane in Southern California, it was announced by A. R. Heron, director of finance. Location of the four sites now being considered were not divulged. Final selection will be made in a few weeks, based on recommendations of a committee.

Appropriations for a lighthouse to be built on the extreme easterly end of Anacapa Island were revealed at Ventura in a public notice received by the Postal Department asking for lighthouse bids. The work specified includes upper and lower landings, concrete stairs to and from landings; reinforced concrete retaining wall at upper landing; permanent and temporary roadways; concrete rain shed with piping system, two 50,000 gallon redwood tanks, and two complete derricks at landing platforms.

Detailed plans are being made for the Imperial County Midwinter Fair to be held at Calexico early in February. Bids have been opened and are expected to soon be awarded for construction of the main administration building, which is to be used as a permanent exhibit building after the fair is over. Exhibits are to be housed in three large tents this year. The permanent buildings will be ready for the following fair.

Bids on sixteen highway projects in California will be opened this month. Total cost of the projects will be $4,500,000—the largest volume of state highway work in any one month in the history of the California state highway system. Among the bids will be that of covering grading of 7.4 miles of the Bayshore highway from San Mateo to Redwood City.

The state Department of Public Works announced it was accepting as satisfactorily completed the contract for a graded roadbed with crushed rock surfacing on three miles of the Redwood Highway from Arcata to a point north of Mad River. The contractors, H. J. Kennedy and Daniel Bayles, bid $92,700.

The new San Jose city directory for 1930 gives San Jose a population of 77,820, an increase of 820 over the figures of last year. An increase of nearly 1000 telephones in services is noted in the directory, which places the number of new telephones in service at the beginning of the new year at 20,109. Last year's figures were 19,218.

Permission was granted by the Railroad Commission to the city of San Diego to construct Anna street at grade across the track of the Atchison, Topeka and Santa Fe Railway Company.

It is a mistake to use a galvanized pail for a milk or cream bucket. Galvanized buckets are difficult to clean and are prone to produce a metallic flavor in milk and cream.

Bishop Is Defensive Player

EVEN if he is woefully weak in hitting, Max Bishop was the second baseman for the Athletics in their struggle with the Cubs for the world's championship. He's so good a defensive player that the team can afford to carry him with the idea of stopping the other fellows with his brilliant infielding.

Max was not expected to drive in a lot of runs. His batting average last year was away down around the .235 mark but with the host of sluggers to do the hitting, Max can ride with them and do the fielding.

Because of the weak hitting of Bishop, the Cubs had a big edge on the Mackmen at the second base position with Hornsby, the leading hitter of the team matched against the helpless little Philadelphia fellow. But those who watched the progress of the A's this season declare that the team always performed better when Bishop was at second even if it got little assistance from him in the attack.

Max Bishop.

Bishop went to the A's in 1924 and has put in all of the last six years with them. At the time he went the team was a helpless trailer. His first year with the outfit was the first year the A's began to show signs of regaining life so it seems this young fellow had something to do with the rejuvenation of the team.

Bishop is just thirty years of age now. He bats left handed but throws with the right. He's 5 feet 8½ inches in height and weighs 155 pounds.

The sporting public may not believe that Connie Mack is wise in his choice of a second baseman, but Mack is old in the game.

Twirler Yde Released to Pacific Coast Club

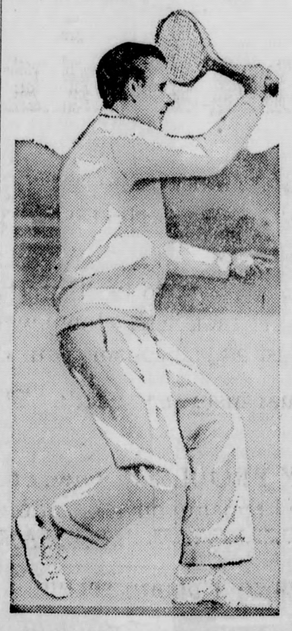
Emil Yde, who left-handed for the Tigers in moments when stress bore down the regular pitchers, is going away from Detroit.

In fact, Emil already has departed from the pay roll of the Bengals for employment with Hollywood of the Pacific Coast league, from which the Tigers purchased Elias O. Funk, an outfielder.

On his return from New York recently Frank J. Navin made the announcement official. It was believed all along that Yde would not be with the Detroit club next season but until Mr. Navin made known his destination it wasn't certain what club he would serve.

The release of Yde is the first of several that are more or less probable. Phillips, Schuble and possibly Rice, won't be with the club next season. The first two are certain to be let out, while Rice can't miss going if the Detroit management can fool any other club into giving it something for the outfielder.

Tilden Is Through



Big Bill Tilden, in the midst of intense training for the French covered courts championships paused long enough to outline his tennis plans for coming campaigns and reiterate that his days of Davis cup play are over. "I will not play Davis cup tennis any more, but I do intend to compete in the French hard court and the Wimbledon championships," Tilden said.

Fame as Gridiron Coach Fails Hanley of Wildcats

A policeman in Wilmette, Ill., arrested Dick Hanley for speeding.

Hanley tried to explain who he was, football coach at Northwestern university, and all that.

"So you're Dick Hanley, eh?" said the policeman. "Well, I'm Knute Rockne. Let's go over to the station house and meet Fielding H. Yost, Dr. Clarence Spears, and the boys."

At the station house Police Chief William Brautigan recognized the coach and released him.

"Humph," snorted the arresting officer, "If Northwestern had gone as fast on the gridiron as their coach did in that automobile it might have got somewhere."

Scoring Tells Nothing

Scoring statistics in football carry little significance. Among the leading scorers of the 1929 season there are few players of the first class. There is not more than one who is ranked among the leading backs. And there is not one who has been included on any of the all-American teams of national circulation.

The players who lead in point scoring are nearly always members of minor teams and they pile up their points against weaker opponents.

The leading scorers in the Western conference did not total one-half as many points as the leading scorers in the East and South.

Coach McNichol to Quit

Eddie McNichol, head coach of the University of Pennsylvania basketball team, confirmed a report that he would not be a candidate for reappointment at the end of the present season. "This is my last year as basketball coach at Penn," he said. He would give no reason.

McNichol was a member of the varsity team from 1914 to 1917, and was captain two years. The team of 1916-17 won the intercollegiate championship.

Rumors are current that Capt. Biff Jones, West Point football coach, may be approached in connection with the vacant coaching position at the University of Oregon to succeed Capt. John I. McEwan, resigned.

LARGE CAGERS ON WOLVERINE COURT

Only Four Players Are Less Than Six Feet Tall.

Michigan's basketball team again this season gives observers an opportunity to dub the Wolverines "giants."

Of the 14 men Coach Veenker has retained on his varsity squad only four are less than six feet tall. Six men stand above the six foot mark, while four are an even six feet tall.

If Coach Veenker should pick Norm Daniels, sophomore forward, it is probable that every man on the team will hit the six-foot mark. Capt. Bob Chapman, who jumps center, is the second tallest man on the squad, being 6 feet 2 inches. Truskowski and Orwig, forwards, as well as Daniels, are an even six feet tall as is Lovell, guard. Jones, sophomore guard prospect, is an inch taller than his rival, Lovell.

Henry Weiss, sophomore forward from Cleveland, is the midget of the squad. He is 5 feet 7, the same as was Danny Rose, star floor guard of last winter. Weiss, however, stands a fine chance of breaking the monopoly of the six-footers.

The three men besides Weiss who are less than six feet tall are Kanitz and Downing, forwards, and Hudson, guard. They all stand 5 feet 10.

Torrell, sub center, is the tallest man, 6 feet 2½ inches. Dougall, another center, and Jennett, guard, are an inch shorter. Ricketts, another guard, is 6 feet 1.

An indication of what the recently authorized additional playing strength will mean to National Hockey league teams is seen in the acquisition by Montreal Maroons of Bill Phillips, flashy center of the Vancouver professionals, who was sold by the Coast club to Windsor, Ontario, for $10,000, and resold for the same figure to the local team.

Maroons will now send into action three complete forward lines, all with real merit. They will consist of Stewart, Siebert and Hooley Smith as regulars; Phillips, Trotter and Ward as seconds and Phillips, Northcott and Robinson as thirds.

Eddie Wittmer, star halfback at Princeton, is captain of the basketball five. Vogt, Carey and Bennett are other football regulars to make the court team.

—

Representative Ham Fish, who is racking his brain to find a way to bring the Army and Navy together in football again, always put a lot of color into all that he did at Harvard. He was a wizard receiver of a forward pass, even going to the extreme of catching them sitting when need be. His unusual height gave him a valuable reach aloft and he could pick the low ones off the ground. In the law school he put in his spare time organizing teams of former Harvard and Yale players for games.

Jane Bell of Toronto, a member of the Canadian women's Olympic track team in 1928 and winner of many national and international honors, has decided to give up running. The announcement of her retirement came through Myrtle Cook, another Olympic star. Miss Cook, who is forming a team to compete in the Millrose games in New York, said Miss Bell had refused to join the team because she was retiring from the track.

The French Tennis Ranking committee issued a new list for the 1929 campaign, with Henri Cochet and Rene Lacoste grouped together in first place. Jean Borotra was third and Christian Boussus and Jacques Brugnon were tied for fourth.

There is a possibility that the Lehigh university lacrosse team will be one of those to meet the combined Oxford-Cambridge team when the Englishmen tour this country in the spring. Some of the colleges already scheduled were divulged by the Intercollegiate LeCrosse association but Lehigh was not included.

It is understood that the negotiations now under way will materialize favorably. Lehigh is one of the pioneer colleges in this sport and on a previous visit of a combined Cambridge-Oxford team was one of the colleges met.

Starting in 1921 with eight schools the Athletic Association of High School Girls of North Carolina now has 87 member schools and more than 20,000 girl athletes. Basketball, golf, tennis and other sports are on the program, but state basketball tournaments were discontinued some time ago.

—

Maury Kent of Northwestern tells this one about "Doc" Spears, the Minnesota coach. It occurred during Spears' first year at West Virginia. Spears' eleven got off to a good start in one of its biggest games when it returned the kickoff 25 yards. On the first play, however, something untoward happened and the referee penalized the West Virginians 15 yards. Another penalty of half the distance to the goal was soon inflicted and a third followed, putting the ball on West Virginia's one-foot line.

This was too much for Spears. He hurried out and without hesitation acquainted the referee with his opinion of him. "Get off the field or I'll penalize your team again!" barked the official.

"Where to, brother, where to?" came back Spears.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

Los Angeles Boy Needed Help

Leroy Young, 1116 Georgia St., Los Angeles, is a "regular fellow," active in sports, and at the top in his classes at school. To look at him now, you'd think he never had a day's sickness but his mother says: "When Leroy was just a little fellow, we found his stomach and bowels were weak. He kept suffering from constipation. Nothing he ate agreed with him. He was fretful, feverish and puny.

"When we started giving him California Fig Syrup his condition improved quickly. His constipation and biliousness stopped and he has had no more trouble of that kind. I have since used California Fig Syrup with him for colds and upset spells. He likes it because it tastes so good and I like it because it helps him so wonderfully!"

California Fig Syrup has been the trusted standby of mothers for over 50 years. Leading physicians recommend it. It is purely vegetable and works with Nature to regulate, tone and strengthen the stomach and bowels of children so they get full nourishment from their food and waste is eliminated in a normal way.

Four million bottles used a year shows how mothers depend on it. Always look for the word "California" on the carton to be sure of getting the genuine.

A Friend in Need

The best "friend in need" in case of fire, accident, theft or death is—INSURANCE; and the average person carries **less than half** the insurance he should for the protection of property and family. And by insurance is meant **all kinds of insurance.**

For there **are all** kinds of insurance available. In fact, to list them here would more than fill the page. That is why we have "insurance specialists." There are men in this town who **specialize** in insurance, and who should be consulted about your insurance problems just as you consult your doctor on the problems of your health.

These men can advise you as to **your** individual insurance needs. They can help you secure the protection to which you and your family are entitled.

INSURANCE is an important COMMUNITY PROBLEM! Lack of insurance is one of the primary causes of poverty; and poverty in a community works a hardship on everyone. TO BE PROPERLY INSURED is an OBLIGATION WHICH IS OWED YOUR FELLOW-TOWNSMAN!

There is no definite schedule of insurance which a person should carry! Individual conditions and circumstances govern individual cases.

PROPER INSURANCE PROTECTION SHOULD HAVE THE FOLLOWING SCOPE:

1: Protection of family in case of death.
2: Protection of property against all types of loss.
3: Protection of income in case of accident or sickness.
4: Protection for age-retirement.

YOUR insurance problem is worthy of intelligent thought and action NOW.

Many towns have been seriously handicapped by individual poverty due to inadequate life insurance protection or to devastating fires without proper fire insurance protection. Let's not take these chances in

Think Safety

IF our terrible accident record is to be lowed Americans must learn to think in terms of accident prevention. In the home, in industry and in the automobile the majority of accidents occur not only because someone is careless but because someone fails to automatically do the right thing in an emergency.

It is a noteworthy fact that the great decrease made in recent years in the industrial accident record has ben the result of an attitude of mind that makes safety an essential, integral part of any industrial operation. Executives think in terms of safety, exactly as they think in terms of profits or production.

In many of the schools of the nation children, through the medium of graphic, interesting lessons, with an appeal to the imagination, are being taught accident prevention. They are shown that safety should be a major factor in any act. As a result, a coming generation will have a subconscious, automatic grasp of the accident problem that will save countless lives in future years. The work has already borne fine fruit in that the death and injury rate among children in schools where safety is part of the curricula, is constantly decreasing.

Adult Americans can all take a lesson in safety from the schools where their children are being educated and from the great employing industries. It is said that no one has a sound grasp of a foreign language until he can think in it in exactly the same way, no one grasps the accident problem until safety is a constant factor in his mental processes.

Swearing on the Radio

THE famous Henderson of Shrevesport, Louisiana, who swears through his own radio broadcasting station, may yet become the direct cause of bringing about repressive measures to regulate some of the wild and careless individuals who pllute the ether. The Radio Commission has told Congress that it possesses no power of censorship and that it can not stop anyone who is using profanity or making other improper use of broadcasting.

Senator Dill does not agree that the Radio Commission is so powerless. He proposes to follow up the evil which has been emphasized by the bad behavior of Henderson and he will seek to secure legislation that will protect the public and increase the wonderful possibilities of radio broadcasting.

Game Life Saving Stations

EDWIN H. STUCKE and CHARLES DAVIS, a pair of Pennsylvania sportsmen, have been devoting considerable effort to taking care of feathered game during wintry weather along the Delaware river in the vicinity of Philadelphia. Artificial cover was provided at several points and hoppers filled with grain were placed in the shelters to feed game birds when snows are deep and other food is not available. The practice is becoming general throughout parts of the United States, with the result that many thousands of birds are saved from starvation.

IT should be the aim of all tax measures to assess every individual and every industry and business, whether a gigantic corporation or a corner grocery store, on a basis of equality. The attitude of mind that advocates soaking the "big fellows" because they can afford it, is a menace to progress and sound government.

They always talk who never think.—Prior

President Hoover Stresses Education

"THE more complex the problems of the nation become, the greater is the need for more and more advanced instruction. Moreover, as our numbers increase and our life expands with science and invention we must discover more and more leaders for every walk of life.

"We cannot hope to succed in directing this increasingly complex civilization unless we draw all the talents of leadership from the whole people. One civilization after another has been wrecked upon the attempt to secure sufficient leadership from a single group or class.

"If we would prevent the growth of class distinction and would constantly refresh our leadership with the ideals of the people we must draw constantly from the general mass. The fullest opportunity for every boy and girl, through the selective processes of education, can alone secure to us this leadership."

All Alone in His Class

ROBERT M. JONES of Tennessee, whose name was sent to the Senate by President Hoover for membership on the Interstate Commerce Commission, has declined the place.

It has often been said that "an office-holder never resigns and seldom dies" and hereafter it may be added: "Once upon a time a man from Tennessee declined a first-class Presidential nomination."

Dynamite Goes to School

MICHIGAN STATE COLLEGE has courses in the uses of explosives and regular credits are given the students who do the required work. George Amundson, extension agricultural engineer of the college faculty said recently: "I believe a course in explosives should be offered in every institution teaching engineering, forestry or agriculture." Formerly, only mining schools had courses in the handling of dynamite and other high explosives but the necessity for blasting in highway construction, subway and other underground projects, and in agricultural engineering now demands expert knowledge of explosives by those directing such operations, Amundson claimed.

Good Start on the Tariff

THE Senate seemed to have cooled off in its troubles over the holidays and in consequence real progress is being made with the tariff bill since the New Year.

The American Legion and Education

NATIONAL COMMANDER OF THE AMERICAN LEGION, O. L. Bodenhamer, in an address at Eldorado, Ark., said:

"The American Legion, dedicated as it is to the building of a still greater country, is vitally interested in the promotion of education. The safety and permanency of America depend largely upon the literacy of the citizenship that maintains it. A well informed public opinion is essential to the success of our people.

"Our organization in my humble opinion could have no greater civic and patriotic purpose than that of lending its efforts to the establishment of equal educational advantages for all. To this end, the American Legion is joining hands with the educators of America."

Heat
- at a finger's touch

With a furnace or boiler burning gas fuel, the temperature of your home is regulated from upstairs by means of a push-button or a thermostat. No trips to the basement on cold mornings. No bother about heat when friends come. Your home is warm and cheerful. Curtains, wall-paper and furniture retain their fresh cleanliness. There is no smoke or soot about your property.

Even though you have no basement, there are fine types of gas-fired equipment for your home.

Gas is the easiest fuel to control, and when a fuel is easy to control, it is absolutely safe.

For full details about heating equipment that burns the clean gas fuel, see a heating contractor or phone or call at our office.

WOODSIDE

Mr. and Mrs. William Wallace Mein and their two daughters are spending the winter in India. Mr. Mein left here several months ago in company with his landscape architect for a visit to the Mein home in South Africa. It is Mr. Mein's intention to reproduce at his home here the effects of his South African home. In the meantime the construction of his house here is being pushed as rapidly as possible. At that, it will probably take another year for its completion. When finished with its encompassing gardents, it will be one of the most elaborate and showy home places in Woodside.

George Whittell has just completed the construction of a very handsome entrance gates of pressed brick and wrought iron for his home place here.

The pupils of the Woodside school voted this week to publish a school paper, under the title of "The Woodside Monthly Review." Rudolph Schilling was chosen editor; Mary Dedo, associate editor and Jack Neuman, business manager. There will be a crew of reporters covering society events, sports and mysteries and crimes and a full staff of special writers. The only controversy arose over the title of the journal. It was at first suggested that it be called "The Woodside Gossip" but it was finally decided that as gossip was already well established in Woodside and in a flourishing condition it needed no acceleration or impetus from the school, and the name "Monthly Review" was chosen as the name for the periodical.

Following the lead of many others, I wended my way on Saturday to the top of the ridge to see what was left of the snow-fall. To one who can remember digging his way out of the front door in the morning and walking to school over the tops of fences completely hidden by the snow and in a temperature of thirty degrees below zero it didn't seem like very much of a snow-fall. But such as it was, it did add a new beauty to the scene. The white patches covering the eastern slopes, the glistening particles still clinging to the drooping redwoods, the crunch of the snow under the tires and the crispness of the air added a strange glamor to that ever beautiful stretch of road known as the Skyline boulevard.

The Parent-Teacher Associations of Menlo Park, Los Lomitas, Portola and Woodside have combined to purchase a portable dental chair which will be used at the respective schools for the better inspection and care of children's teeth. The chair was used for the first time on Thursday morning at the Woodside school Dr. C. H. McMills officiating.

The Portola Social Club wil hold a card party at the school house in Portola on this Friday evening and the Parent-Teacher Association of Woodside will offer a card party at their headquarters here on next Friday night, the 24th inst. This party will be in charge of Mrs. A. D. Meyer.

A combination service station and tea room is being built for Mrs. Walters of the Woodside Glens at the corner of Canyada Road and Glenwood Drive.

Miss Marie Hubeli, who has been attending the Sequoia Union High School, has transferred to Healds Business College in San Francisco.

Jack Hosford, famous for his ability in football during his high school days, will enter Santa Clara College this spring.

Mrs. Emma Andreen, Mrs. F. H. Mighall and Mrs. J. D. Gish were luncheon guests on Thursday of Mrs. Mervyn MacArthur in Redwood City.

Stamp Club Pary Proves Big Success

The party which was held by the Sequoia Philatelic Society on Tuesday evening turned out a fine success. Twenty-six were present and enjoyed the games and stories which were put on by Roy A. Hohberger, the local Young Men's Christian Association secretary, under whose auspices the club is promoted. Prizes were awarded for the winners of the contests and games and each one received a packet of stamps. Refreshments were served as a finale.

Plans were made for setting up an exhibit and for entering the best set-ups of stamps in the California competetion which will be held in April.

Mr. and Mrs. A. J. Weiss are enjoying a visit of ten days in the southern part of the state, making their headquarters in Los Angeles.

Cho-cho, the health clown, so well known by the schools of the state, wil present a program for the children at the P.-T. A. hall next Monday afternoon. The pupils of Portola School will also be in attendance. The program is arranged by Miss Florence Boddy, the district school nurse.

Mr. Rudolph Schilling has been called, unexpectedly to Europe on business. He will leave on Saturday for an absence of about ten weeks.

Organization-Wide STORE MANAGERS' Contest

More Customers
Bigger Sales
Greater Savings

This week, all Safeway Store Managers are engaged in a contest to demonstrate their intense interest in their customers and their stores. Each of them will put forth extraordinary effort to give better service. Greater values will be found all over the store. The success of each man's efforts will be judged by the percentage of increase in number of customers served plus the percentage of increase in total sales. Each manager is engaged in this contest and hopes to win. Here are some of the inducements your local manager offers you to visit his store.

Frank M. Campbell Returns

Frank M. Campbell returned last week from a hurried trip to Jerome, Arizona, where he went to be at the bedside of his father, who suffered a paralytic stroke. Campbell, Sr., is connected with the Clarke Copper mining concern in Arizona. He may not recover from his present illness.

Justin Larrecou to Return to Florida

Justin Larrecou, who arrived a short time tgo from Florida to visit his mother, will return Monday to Miami, where he has a string of fast hounds that are to enter the races there. The racing season has already opened in Florida.

Rainfall Heavy

The rainfall for the past 48 hours has been 1.50 inches, making a total of 6.80 inches for the season against 5.75 inches at this time last year.

George Nunn Retires

George Nunn, the widely known landscape gardner, has retired from active work and henceforth will find surcease of labor under his own vine and figtree at his home on the highway. Mr. Nunn has earned his rest and recreation for from the time he graduated from the Botanical Gardens of London to the present he has labored among the flowers unceasingly until he has acquired a knowledge of floriculture that but few men possess. He knows his blossoms. Mr. Nunn's labor among the flowers was a labor of love. Never was he so happy as when he lingered where the pink and violet mingled, where the coy fuchsia unfolded its beauty and where the rose burst forth in all its splendor. Now in the evening of his life, Mr. Nunn bids farewell to his floral friends. They and his army of other admirers wish him many years of happines before the twilight comes.

Joseph Veverka Returns

Joseph Veverka has returned from Hollywood, where the screen actresses reign supreme, and has assumed his position as local station agent for the Southern Pacific Company. His numerous friends are pleased to see him once again at his post of duty.

Joseph Wong Killed in S. F.

Joseph Wong, a former boarding house keper in the local Chinatown, was killed in San Francisco last week in falling down an elevator. Wong leaves a wife and two small children. The Wongs are educated Chinese, the widow being a high school grauate and a native of San Francisco. The family is well liked here.

Native Daughters Card Games

Next Tuesday evening will be the third of a series of card games given under the auspices of the Native Daughters. The person holding the largest score at the end of the contest will be given a valuable prize.

Infant Girl Passes

The month and half old daughter of Mr. and Mrs. R. Banks, nee Walsh, was found dead in bed Monday morning. The little girl was attacked during the night with pneumonia before aid could be given her. The mother did not observe the symptons, although she had seen the child a short time before its death. The attack was sudden and decisive.

Council Meets

The council meeting held Tuesday was largely attended as it was the date set for hearing protests on Stanford Park street improvements. All members were present.

The county tax collector in a communication announced that the sum of $2000.50 was allocated to the city in the first installment of taxes.

The report of the chief of police for the month ending December 31, 1929, showed that the sum of $863.50 had been collected, fines, $723 and licenses collected $140.50. Ninety-seven arrests were made.

D. E. O'Keefe was re-appointed a member of the Las Pulgas Mosquito Abatement District board for a term of two years.

Two supplementary protests from the people of Stanford Park were read and filed.

Weeden moved that proceedings, known as 29-1 be abandoned. He supplemented his motion by saying that the property owners could meet at some future time and again take up similar proceedings. The motion was seconded by Dale. Blake offered an amendment to the motion that all proceedings in the street improvement question be continued to March 11, in the mean time that the matter could be discussed at full length by all concerned. The chairman declared the motion out of order, sustaining Weeden's point of order.

Then followed a long and wearisome discussion on all phases of the vexed question, John Burnett, a very handsome attorney of San Jose, a great grandson of the first governor of California, was the first to speak. He appeared for David Kirby. Burnett urged the improvements on behalf of his client, showing that such a course would redound to the benefit of the city. He hoped the pending motion would not succeed. Attorney David of Palo Alto opposed the improvements at this time, as a majority of the property owners were opposed to going on with the work. He spoke long and often. It was brought out by Blake that Davis represented the Menlo Realty Company that owns $150,000 worth of realty in the area sought to be improved.

Attorney A. J. Stebenne of Redwood City also spoke at some length for the protestants urging that all proceedings at this time be abandoned.

J. J. Harcom roundly chided David for his insincerity, declaring he was heartily in favor of the improvements planned, and if the land holders above Middle avenue did not desire the improvements they should be excluded.

Sanquinetti caused laughter by stating that he was told by Engineer Armstrong that the pavement would cost $9 a front foot and that children on Columbia avenue, where he lived, would be in danger of their lives if the streets were improved. However he favored the improvements.

Walker favored the postponment, and agreed with Blake that the people be given time to discus the question dispassionately. He favored the best of work and was opposed to cheap pavement.

As a further reason why the proceedings be abandoned Weeden set forth that sewer and water pipes would later be installed in the district and that the proposed new street would be dug up and ruined.

The chairman believed in improvements but was opposed in ramming the proceedings down the throats of the property owners. He favored moderation and study of the question.

The motion to abandon was lost, Dale and Weeden voting yes, and Blake, Walker and Ellis voting, no.

Blake then moved that the proceedings be postponed to March 11, the motion being seconded by Walker was carried, Dale and Weeden voting, no.

On motion of Walker the salary of the janitor was raised from $10 to $15 a month.

It was agreed that no action would be taken this year in withdrawing from the Menlo Park Lighting district.

Building Inspector Harcom presented plans and specifications for a building permit on a lot on Middle avenue asked by Mrs. Gurnsey. Harcom would not issue the permit owing to the manner in which the lot was subdivided. The application for the permit was referred to the city attorney.

The sum of $25 was appropriated as an emergency fund for the repair and upkeep of the city car.

The council adjourned to January 28th.

Flyer Gets Some Expert Advice

FEAR

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

As a child I was terrified by the dark. No sooner had the shadows begun to gather than I peopled every dark corner inside the house and out with untold dangers. If I had to go to the barn I expected some one or something to jump from behind every tree or to rise up from every dark corner to do me injury. If I were sent down cellar I shrank against the farther wall lest some hand reach up from the open side of the staircase and grab my leg. I never told anyone of these fears, but I was far into manhood before I was able to control or to forget them.

As one reads the history of religion one sees how great a part fear played in its development. Primitive man saw in rocks and trees, in thunderbolts, and wind and storm and in every object living and inanimate some manifestation of an unseen and mighty power which he thought he must placate if he were to be fortunate, or lucky, or successful. He did not understand these things, but he was afraid of the gods, and so sacrifice and prayer and other elements of primitive worship came into his life.

We are wiser now, as we have grown up or have come better to understand the laws of nature, but everywhere we can still see how fear, useless, unintelligible, pagan almost, still handicaps and holds men back from success, from happiness, from accomplishing the best that is in them.

Gordon is afraid of his boss. When he meets him he is thrown into a state of sweaty self-consciousness. When he is sent for he goes trembling wondering what has happened and what the penalty is likely to be. Fear puts him always at a disadvantage, paralyzes his tongue, stupefies his brain and makes him appear like a veritable boob. And yet he has more brains and more ability than his boss; only fear ruins him.

George is afraid of his wife. She is a person of huge dimensions; she blusters and talks in a loud, threatening voice. She checks him up at every move he attempts to make, and rather than have a row he allows himself to be browbeaten and cowed. He could manage her if he would only once take a firm stand, and they might be much happier than they are, but fear inhibits in him every tendency to assert himself.

I stayed at the Potters for a few days not long ago. Mrs. Potter is an intelligent and educated woman, but she is obsessed with fear. She knows the value of fresh air, but every window in the house is locked, every door is barred, all her silver is in the bank, the window blinds are pulled down as soon as the sun has set. When she leaves the house she locks everything that can be locked and when she has locked the door she goes back and shakes it two or three times to be sure that it is locked. Fear! And yet she has never had a burglary in her life.

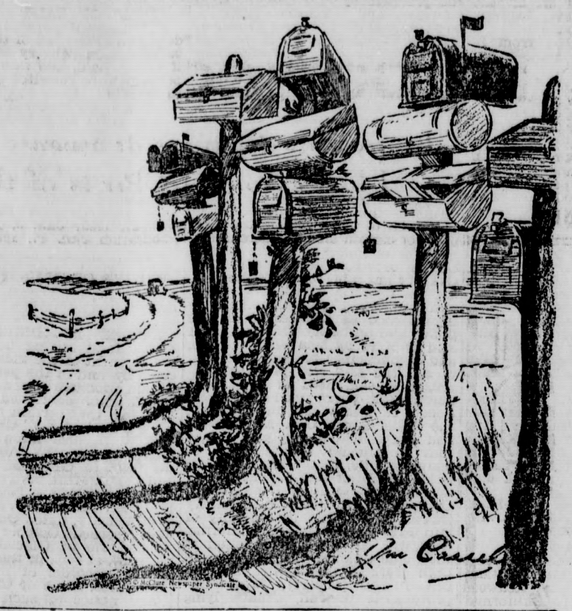
The Pulse of the Outside World



Lights of New York

—By—
GRANT DIXON

Particular

Johnny O'Connor, who knows his Broadway better, probably, than any other man, tells the story of the efforts of a vaudeville agent to sign up the contestants in the recent six-day bicycle race held at Madison Square Garden. He thought that the winning team would appreciate the extra money to be gained from a short tour in vaudeville. But the winners refused the offer when they learned that they would have to play four shows a day and five on Saturdays and Sundays. This reminded O'Connor of the vaudeville engagement undertaken by "Doc" Cook after he "discovered" the North pole. Cook, says O'Connor, walked off the bill at McVicker's theater in Chicago, complaining that his dressing room was too cold.

Politest

H. E. Ward, president of the Irving Trust company, has been set down in history as the most polite of all bankers. His company is erecting a 50-story skyscraper at 1 Wall street. Just before erection of the steel skeleton began, Mr. Ward sent a note to each of some 550 captains of industry and finance whose offices are in adjoining buildings. The note to J. P. Morgan read as follows:

"May we hope you will bear with us as patiently as possible during the unavoidable noisy weeks that lie just ahead. . . . Our builder is pressing the work at top speed. His schedule and the present season of closed windows will at least minimize your discomfort."

Leg Facts

A gentleman who works on Variety and who consequently calls himself a Variety mugg reports that dance directors have become such experts that they can tell a girl's nationality from the look of her legs—and also how good a dancer she is. Says he: "The chorine who may be a crossword puzzle from ear to ear might be extra intelligent according to how her limb reads. Dutch girls' legs are shorter and chubbier than most. Spanish girls can be identified by thin ankles and knees. Inner ankle curves denote German blood. A French girl has small bones and extravagant muscular curves. Intelligent girls lift their legs higher while walking. American girls have the longest shins."

Fruitless Search

The American Society for Psychical Research has been conducting a fruitless search for a real New York ghost. But, it appears, ghosts just can't live in New York. They can't stand apartment house life, and there are no suitable private houses which might be haunted. The old Jumel mansion used to be haunted, but the city acquired it 25 years ago, and now it is just one more museum. And there's a prize of $21,000 waiting for the person who finds a real New York ghost.

It's Tough

Lean days lie behind and ahead of the theater business. Twenty productions closed in two weeks, and one of them lasted three performances. Another lasted four. One Broadwayfarer remarked that the only way to beat the game this season is to close a production before it opens and then sell the talkie rights.

Tail Lights

The idea of persons carrying tail lights to protect them from motor traffic has always appeared fantastic enough to get a good laugh in the vaudeville houses. But it is no laughing matter with Mrs. Ida Lathers, who lives on West End avenue. Mrs. Lathers, a New Yorker from the old days, carries a red lantern when she ventures out at night. For 20 years she has been a director for a home for the aged, and for that many years she has been taking a surface car to visit the institution. Nowadays, she finds, motorists speed by tramway cars without stopping, and only by waving her lantern can she board a car in safety at night.

DIPPING INTO SCIENCE

The Coal Supply

While impossible to estimate accurately because of undiscovered fields, the known supply will last for centuries at the present rate of consumption. One recent estimate was approximately 8,000,000,000,000 tons, of which over five-eighths is in the United States. In square miles, the coal area of the United States is about 335,000. China is next with 200,000 square miles.

Nose-Pulling Tells if They Are Sober

Lawrence, Mass. — Convinced that your nose knows, police have adopted a proboscis-pinching policy to determine whether alleged drunken drivers are intoxicated.

The suspect closes his eyes and then makes six attempts to grab his nose. The plan was first tried on Arthur Parquette, who was given his freedom after finding his nose four times in six attempts.

On the Funny Side

TRAVEL!

For hours they had been together on her front porch. The moon cast its tender gleam down on the young and handsome couple who sat strangely far apart. He sighed. She sighed. Finally:

"I wish I had money, dear," he said. "I'd travel."

Impulsively, she slipped her hand into his; then, rising swiftly, she sped into the house.

Aghast, he looked at his hand. In the palm lay a nickel.

Census Will Reveal Secrets

Washington.—How many women in America are working? How many families own radio sets? What percentage of household heads own their own homes? At what age are most persons married for the first time?

These are some of the questions that will be answered for the country as a whole for the first time after completion of the 1930 census. Interrogations aimed to obtain the replies were included in a list of new questions to be asked by enumerators next April, as announced by William M. Steuart, director of the census bureau.

Most important of the new questions, in the opinion of Mr. Steuart, is that relating to home owning. The enumerators will find out from the head of each family the value of his home if owned, or the monthly rental if rented, thus making possible a classification of families according to buying power and furnishing a basis for selling and advertising campaigns.

The question on radio sets, according to Mr. Steuart, will tell radio station operators and advertisers just how large the potential radio audience is.

Women doing housework in their own homes will be designated in the 1930 census reports as "home makers." This designation will be entered in the family relationship column rather than in the occupation column, in order that women who follow a profession or other gainful occupation, in addition to being home makers, may properly be classified in respect to both lines of activity. This will reveal for the first time the information as to exactly how many women are working and to what extent.

The question asking for the age at first marriage is intended to serve two purposes. First, it will give definite information as to the relative age at marriage of persons in different racial and economic groups; second, it will make possible a tabulation on the number of children in families of women who have been married a stated number of years.

"In the classification of gainful workers according to occupation and industry it is proposed to put much greater stress than heretofore on the returns for industry," Mr. Steuart said. "A special schedule for unemployment will contain a number of questions designed to separate those not working into several classes, including, besides those absolutely unemployed, those who have jobs for the time being and those laid off without pay."

WOMEN IN BUSINESS DO WELL

Washington.—Rapid economic strides made by women in recent years are reflected in income-tax returns, which reveal members of the fair sex as an important source of revenue for the federal government.

An analysis of 1927 income-tax returns made by treasury experts discloses that single women made 535,199 returns in that year and had net taxable income aggregating $2,233,844,063. In addition wives filed 112,719 separate returns and reported net income of $1,219,714,318.

For the same year single men filed 1,512,497 tax returns and reported aggregate net taxable income of 4,912,025,508. Husbands and wives filing joint returns totaled 2,016,850 and had net taxable income of $13,870,232,343.

Study of the above figures shows that a greater part of the federal revenue from individual income taxes is derived from married persons, while returns by single women constituted one-third the number filed by single men. Single women also had net income aggregating about one-third those reported by single men.

On a percentage basis, the statistics revealed, women filed 15.80 per cent of all individual tax returns and had 15.32 of all taxable net income reported. Single men made 34.44 per cent of all returns and reported 21.80 per cent of all taxable income. Married persons filed 50 per cent of the returns and had 61 per cent of the aggregate net income taxed.

Three single women and three single men paid taxes on incomes ranging between $3,000,000 and $4,000,000, while fifteen husbands and wives reported incomes in that class. Five single men reported incomes of $5,000,000 and more, but there were no single women in this class.

FARM STOCK

SHORTS SLOP NOT AID IN FATTENING

Kansas College Makes Instructive Experiments.

Wheat shorts slop does not improve the ration for fattening pigs, experiments made at the Kansas State Agricultural college and reported on at the hog raisers' meeting at Manhattan recently show. The results of the tests show that the gains were greater and the costs less where no shorts or slop were fed.

Two lots of pigs were used in this test. Their average weight was approximately 114 pounds each when the experiment started. They were uniform in size and quality. All were pure-bred Durocs. There were ten pigs in each lot and they were fed for a period of 80 days. Lot 1 was fed corn and tankage in a self-feeder and given free access to alfalfa hay and salt. Lot 2 was self-fed corn, alfalfa, and salt in the same manner as lot 1, but received one pound of wheat shorts and .4 pound of tankage per pig once a day in the form of slop made with water.

The pigs in lot 1 that received no shorts or slop gained 2.15 pounds per head per day, whereas the pigs fed shorts in the form of a slop gained only 1.94 pounds per head per day. The pigs receiving no slop required 373.37 pounds of corn to produce 100 pounds of gain in addition to 35.23 pounds of tankage. The pigs receiving slop consumed 348.84 pounds of corn, 20.66 pounds of tankage, and 51.65 pounds of shorts to produce 100 pounds of gain. The consumption of alfalfa was about the same. The cost of 100 pounds gain where corn and tankage were fed free choice was $6.50 per 100; where corn plus shorts and tankage in the form of slop was fed the cost was $6.55 per 100.

The pigs receiving no slop were fatter at the close of the experiment and were valued at slightly more per 100 pounds than those receiving slop in their ration. In addition to the larger gains, the cheaper gains, and the better finished condition of the pigs fed no slop, the slop-fed pigs required a great deal of extra labor in feeding.

Alfalfa Is Excellent Roughage for Horses

Alfalfa hay is an excellent roughage for horses, being more palatable than timothy or prairie hay and richer in protein and lime. For those reasons, it is particularly valuable for balancing grain rations that are poor in those respects, such as corn, says A. L. Harvey, horse expert of the animal husbandry division, university farm, St. Paul.

Many horse owners do not use alfalfa at all for their work horses, because they think it affects the kidney, causes the horses to sweat excessively and is apt to cause heaves. Experiments have proved that no bad effects are obtained if alfalfa hay is not fed in excessive amounts. Not more than one and one-fourth pounds of alfalfa per one hundred pounds live weight should be fed, and even that amount may be too much for some horses.

Many farmers report that they have obtained best results when they replaced about one-half of the usual ration of timothy or prairie hay with alfalfa hay. This method is to be recommended to beginners or when the second or third cuttings of alfalfa are fed.

Profits Made by Swine Following Beef Cattle

The gains made by hogs following fattening cattle from the feed salvaged often constitute an important part of the profits in the enterprise. In discussing this phase of cattle fattening, Prof. E. F. Ferrin of the Minnesota animal husbandry department cited experimental results showing that where cattle are being fed whole shelled corn or ear corn, it is common for the hogs following to make from $3 to $4 worth of pork per steer from the feed salvaged during an ordinary steer-fattening period.

To get best results, active, thrifty pigs should be used. The pigs should weigh 100 to 150 pounds when put with the steers. They should then be marketed when they reach 200 to 250 pounds in weight, and other lighter pigs put in. About one pig per steer following two-year-old steers and about one pig for each two steers following yearlings and calves is the proper number.

To give the most efficient help in making cattle feeding profitable, pigs should gain about one pound each per day.

Feeding for Beef

Just as a pig makes more economical gains when it is given access to grain as soon as it can be taught to eat and is then full-fed till finished for the market, so also does a calf make more beef from a given amount of feed if it is full-fed from birth to block. It should be mentioned in this connection, however, that the ration must always be well balanced with reference to protein and mineral matter, otherwise economical returns will not be secured.

Cooking Doesn't Help

Feeding trials conducted by various agriculture experiment stations have proven that cooking does not increase the digestibility or nutritive value of grains for hogs. There is some evidence to show that cooking decreases the digestibility of the protein in a feed. However, a few feeds such as potatoes are improved by cooking. There is nothing to be gained by soaking or wetting most grain feeds unless the hogs will not drink enough water.

FAMILY DOCTOR LEARNED THIS ABOUT CONSTIPATION

Dr Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it.

Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where bad breath, coated tongue, gas, headaches, biliousness and lack of appetite or energy showed the bowels of men, women and children were sluggish. It proved successful in even the most obstinate cases; old folks liked it for it never gripes; children liked its pleasant taste. All drugstores today have Dr. Caldwell's Syrup Pepsin in bottles.

Needless Pain!

Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to Bayer Aspirin for *relief*.

Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

Rev. Conlan Passes Away

By D. E. O'KEEFE

Father John C. Conlan, pastor of Mount Carmel Church here from 1895 to 1903, passed peacefully away at O'Conner Sanitarium at San Jose last Thursday. For some time he had been chaplain at the institution. The deceased priest had many friends in Redwood City who were pained to learn of his demise. Though a victim of tuberculosis from early manhood, he lived to the age of 74 years. The dread disease hampered him in his work in the vineyard of the Lord, but he was courageous and struggled on doing all his strength would permit him to do in his chosen and holy calling.

After his ordination in Liverpool, England, the young clergyman sailed for Australia to begin his life work in the ministry. At San Francisco, enroute, he was taken with a severe hemorrhage, and stopped at the home of Archbishop Alemany. The bishop was so impressed with his learning and piety, that he persuaded the young priest to remain in this diocese. Regaining his strength, Father Conlan was appointed pastor of St. Francis church in San Francisco. Here his health failed and after a time assumed his duties as assistant pastor of the Church of Nativity at Menlo Park. This was in 1885. Later he was pastor in one of the San Francisco churches, coming in 1895 to Redwood City, succeeding the late Father Eugene O'Sullivan. By his earnest, faithful work here he built up a big congregation. Though sick a great portion of the time he heroically labored for his parish until 1903, when he was compelled to give up the parish to accept the position of chaplain at St. Vincent College at Los Angeles, later going to Hollywood. Some time later he was sent to Mill Valley, later going to San Jose.

Father Conlan had the reputation of being the most learned priest of the country. His attainments as a scholar of deep thought, were very high. His writings were gems of literature. The old files of the Times-Gazette will attest this for he often wrote on local topics for the paper. His sermons were eloquent, beautifully phrazed and gracefully delivered. Father Conlan's eulogies were masterpieces. His panegyric over the remains of a young lady who died here about twenty-five years ago was a classic. The thought expressed on this occasion was pure, sweet and masterful, bringing consolation to the bereaved parents of the young girl, as well as hope and encouragement to all those who heard the beautiful words.

Had Father Conlan enjoyed good health he no doubt would have been the recipient of high honors in the Catholic church. His ability and learning were recognized but was so handicapped by his ailment that he could not accept any duties requiring heavy work.

The solemn requiem mass celebrated at the funeral in St. Ignatius Church in San Francisco on Saturday was largely attended by both laity and clergy. Father Whalen, president of St. Ignatius College, delivered a very eloquent sermon upon the life and deeds of the dead priest. He eloquently dwelt upon the piety and holiness of the deceased.

The interment was in Holy Cross cemetery, where were laid to rest the remains of a good and noble man, whose sick body had prevented him from reaching the goal he set out in life to secure. His holy and devout career, his patienece and fortitude in suffering have certainly won him a high place in the world beyond.

Work To Start On New Ford Garage

Work on the new home of the Towne Motor Co., Ford dealers, at the corner of Webster and Theatre streets, is expected to start the end of this week, the contract having been awarded by the General Properties Co., the builders, to Wells E. Goodenough of Palo Alto. The building will be completed, it is expected within four months.

The structure will be of re-inforced concrete and will have a frontage of 100 feet on Theatre street, and 85 feet on Webster street, with a depth of 125 feet. There will be two main entrances, one on Webster street and one on Theatre street.

There will be a complete service department, twice the size of the company's present one, with greasing and washing departments. In fact, the new garage will be equipped to give complete service to Ford car owners, according to Kendall B. Towne, the manager of the Towne Motor Co. There will be a spacious show room, large enough to display six cars and a modern office in the front of the building at the Webster street entrance.

Roy Harrison is in charge of the service department of the company.

LOCAL HAPPENINGS

Bart Sheehan, who many years ago conducted the St. Charles hotel in this city in the present-day Walter building on Broadway, passed away at his home in San Mateo Wednesday evening. Sheehan was the son of Bart Sheehan, Sr., a pioneer businessman of San Mateo and a nephew of Ex-Sheriff M. Sheehan. The deceased was widely known in San Mateo county.

Thomas Stott, a pioneer and for a number of years connected with the local grammar school, was operated upon at Mills Memorial hospital yesterday morning. The operation relieved him of his suffering but he is still in a precarious condition. His many friends hope he will soon be convalescent.

Menlo Park(cont)

Death of Martin J. McKeown

After days of suffering and weeks and months of sickness Martin J. McKeown, the widely-known real estate operator, answered the final summons at his home on Selby Lane, Atherton, last Monday morning.

Mr. McKeown was born forty-six years ago in Quebec, Canada, and had scarcely reached life's meridan, when the Valley of the Shades claimed him and at a time when the future looked so roseate, so encouraging, so entrancing. By hard work and profitable investments at Quebec he accumulated a sufficient fortune to make the remainder of the journey on life's highway pleasant and easy.

Retiring from busines McKeown came to this section for health and recreation seven years ago. Tiring of inactivity he became associated with M. A. McCann in real estate operations and was successful until his illness prevented further activity in that occupation.

Mr. McKeown loved his home, family and friends. He was the soul of kindness, strong in his religious faith, just and honest in his dealings with his fellow man, a citizen of the highest character and probity, a man of honor and a man actuated with the highest ideals of life. The community in which he lived loses by his death, the state suffers a loss and his family and friends are deprived of a devoted true and loyal companion.

After the celebration of a requiem mass in the Church of the Nativity, Menlo Park, Tuesday morning the remains were lovingly and tenderly laid away in a mausoleum in Holy Cross cemetery, Colma.

The deceased is survived by his widow and a young son, Martin J. McKeown.

DIMMER, as Trustees for the benefit of HOME MUTUAL DEPOSIT-LOAN COMPANY, a corporation, as Beneficiary, dated September 12, 1928, and recorded September 20, 1928, in Volume 378 of Official Records at page 33, et seq., in the office of the County Recorder of the County of San Mateo, State of California;

And notice of such default and of the election of said beneficiary to cause the property described in said deed of trust to be sold to satisfy the obligations secured by said deed of trust, having been recorded by said beneficiary, the owner and holder of the obligations and indebtedness secured thereby, on the 14th day of October, 1929, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 436 of Official Records, page 245;

And demand having been made upon the undersigned, as trustees under said deed of trust, by said beneficiary, that said undersigned sell the premises by said deed of trust conveyed and hereinafter described as in said deed of trust provided;

NOW, THEREFORE, in accordance with the terms and conditions and under the authority of said deed of trust, and in pursuance of a resolution passed and adopted on the 8th day of October, 1929, by the Board of Directors of said Home Mutual Deposit-Loan Company, the owner and holder of the promissory note and obligations secured by said deed of trust declaring that default has been made in the performance of certain promises and agreements of the Grantor contained in said deed of trust, and in the payment of certain moneys therein provided to be paid and of the indebtedness secured thereby, and that Grantor has otherwise defaulted under the terms of said deed of trust, and requesting and directing the undersigned as trustees under the power and authority conferred upon said trustees by said deed of trust, and in pursuance of said resolution to sell the said real property described in said deed of trust and hereinafter particularly described, to satisfy said indebtedness, the undersigned Geo. M. Mitchell and J. Dimmer hereby give notice that on Monday the 10th day of February, 1930, at the hour of 10:45 o'clock A. M. of said day, at the office of Home Mutual Deposit-Loan Company, No. 228 Montgomery Street, in the City and County of San Francisco, State of California, they will sell at public auction to the highest bidder, for cash in Gold Coin of the United States, all that certain real property, with improvements thereon, situate, lying and being in the City of Redwood City, County of San Mateo, State of California, and described as follows, to-wit:

Lot numbered nine (9) in Block numbered nine (9) Range "D", as shown on that certain map entitled "Town of Mezesville", filed in the office of the County Recorder of San Mateo County August 1, 1856, in Book 1 of Maps at page 79.

TERMS OF SALE: Cash, ten (10%) per cent payable to the undersigned at the fall of the hammer, balance upon delivery of deed, and if not so paid, the said ten (10%) per cent to be forfeited and the sale to be void.

DATED: January 15, 1930.

GEO. M. MITCHELL, Trustee.

J. DIMMER, Trustees.
